<sup>1</sup>This value represents that an individual diagnosed with COVID-19 was present in a school building. Non-exempt close contacts were notified directly and provided with testing and quarantine information. Classroom letters were also sent to individual classrooms to advise for the monitoring of symptoms.

<sup>2</sup>At this time, since case numbers at individual schools are 5 or below, out of consideration of privacy and best practices on reporting, we will not publish case counts at individual schools.

More information and definitions can be found on our [Back to School website](#).
