

EMERGENCY PLANS

Advance planning for emergencies and disasters is essential to provide for the safety of students and staff.

The Superintendent, in conjunction with the police and fire departments, will develop and maintain plans that meet the requirements of state law for preparedness in case of fire, civil emergencies, and natural disasters.

Building Principals will meet all requirements for conducting fire and emergency drills to give students practice in moving with orderly dispatch to designated areas under emergency conditions, and the staff practice in carrying out their assigned responsibilities for building evacuation.
