## **(NEW) HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES**

As required by law, the Franklin Public School District will work with homeless children and youth and unaccompanied youth <sup>1</sup> (collectively, "homeless students") as well as their families or legal guardians to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Head Start and comparable preschool programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs, school nutrition programs, summer programming, and extracurricular activities.

Homeless students are defined as lacking a fixed, regular and adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing, economic hardship, or similar reason;
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals;
5. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations for human beings;
6. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings; and
7. Migratory children living in conditions described in the previous examples.

### **Students Remaining in Schools of Origin**

It is presumed to be in the best interest of homeless students to remain in their schools of origin, i.e. the school that the student was attending at the time <sup>they</sup> he or she became homeless, or the last school the student attended prior to becoming homeless. Homeless students may continue to attend their school of origin for as long as they remain homeless or until the end of the academic year in which they obtain permanent housing. For homeless students who complete the final grade level served by the school of origin, the term "school of origin" shall also include the receiving school in the same school district educating students at the next grade level.

Homeless students are entitled to transportation comparable to that provided for all other students attending school in the district. The district will transport students who are sheltered or temporarily residing within the district to the students' school of origin. For homeless students attending a school of origin located outside the district in which the student is sheltered or temporarily residing, the district in which the school of origin is located will coordinate with the district in which the student is sheltered or temporarily residing to provide the transportation services necessary for the student, and these districts will divide the cost equally. Formerly homeless students who find permanent housing mid-school year will continue to receive transportation services until the end of the school year.

### **Students Enrolling in District Where Sheltered or Temporarily Residing**

Parents or guardians may elect to enroll homeless students in the school district in which the student is sheltered or temporarily residing, rather than having the student remain in the school of origin. Enrollment changes for homeless students should take place immediately.

If homeless students are unable to provide written proof of their shelter or temporary residence in the district, the homeless liaison will work with the family seeking enrollment to determine homelessness. Information regarding a homeless student's living arrangement shall be considered a student education record, and not directory information. Records containing information about the homeless student's living arrangement may not be disclosed without the written consent of the parent or satisfaction of another student-privacy related exemption.

If the student does not have immediate access to immunization records, the student shall be permitted to enroll under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary. After enrollment, the district will immediately request available records from the student's previous school.

Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to homeless families on the same terms as families who reside in the district. Accordingly, the district will provide transportation services to school in a manner comparable to the transportation provided for all other students in the district.

### **Dispute Resolution**

1 If the district disagrees with a parent or guardian's decision to keep a student enrolled in the school of origin and considers enrollment in the district where the student is sheltered or temporarily residing to be in the student's best interest, the district will explain to the parent, in writing and in a language the parent can understand, 2 the rationale for its determination and provide parent with written notice of their rights to appeal the district's determination to the Massachusetts Department of Elementary and Secondary Education 3. During the pendency of any such appeal, the student should remain enrolled in the school selected by the parent or guardian, receiving transportation to school and access to other available services and programs.

The Massachusetts Department of Elementary and Secondary Education's Advisory on Homeless Education Assistance contains additional information about educating homeless students and the appeal process. This advisory is available at the following link: <http://www.doe.mass.edu/mv/haa/mckinney-vento.docx>

### **Homeless Liaison**

The Superintendent shall designate an appropriate staff person to be the district's liaison for homeless students and their families. The district's liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students in locations such as schools, family shelters, and soup kitchens. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students. The liaison shall ensure district staff receive professional development and other support on issues involving homeless students.

## **EDUCATIONAL OPPORTUNITIES FOR CHILDREN IN FOSTER CARE**

The purpose of this policy is to ensure the educational stability of students in foster care and their equal access to the same free and appropriate public education through high school graduation as provided to other students as required by law. Educational stability has a lasting impact on students' academic achievement and wellbeing, and the Franklin School Committee is committed to supporting district and community efforts to ensure that students in foster care have access to high quality, stable educational experiences.

The law requires that foster care students continue to attend their school of origin unless after a collaborative decision-making process it is determined to be in the student's best interest to enroll in and attend school in the district in which a foster care provider or facility is located (if different). The law also requires that when it is not in the student's best interest to remain in the school of origin, the student is immediately enrolled and attending in a new school district, even if records normally required for enrollment cannot be quickly produced. Additionally, this requires the Department of Children and Families (DCF), The Department of Elementary and Secondary Education (DESE), and the school district to designate points of contact; and also that the district collaborate with DCF to ensure that students will receive transportation to the school of origin if needed **and other services to which they may be entitled.**

### **Best Interest Determination**

Decisions about whether a student in foster care should continue to attend the school of origin should be made collaboratively by DCF, the student (as appropriate), the student's family and/or foster family (and if different, the person authorized to make educational decisions on behalf of the student), the school and district of origin, and (when different) the local district where the student is placed. Best interest determinations should focus on the needs of each individual student and take into account a variety of factors. Every effort should be made to reach an agreement regarding the appropriate school placement of a student in foster care. However, if there is disagreement regarding school placement for a student in foster care, DCF will finalize the best interest determination.

The district can seek a review of DCF's decision by utilizing a Foster Care School Selection Dispute Resolution Process established by DESE and DCF. Decisions made through this process are not subject to review. Under the law, to promote educational stability, students should continue to attend their schools of origin while best interest determinations are being made.

### **Transportation**

The district of origin must collaborate with DCF on how transportation will be provided and arranged to ensure that students in foster care who need transportation to remain in their school of origin will receive such transportation while they are in foster care.

Transportation options may include using Title I funds, establishing regional collaborations among districts, coordinating with existing routes for transportation, seeking help from foster parent(s), etc. Absent other agreements between the district and DCF, the district of origin is responsible for providing transportation to and from the school of origin.

### **Immediate Enrollment**

If it is in the best interest of a student in foster care to leave the school of origin, the student must be enrolled in school in the local school district immediately. During enrollment of students in foster care, DCF representatives will present the district with a form indicating that the student is in foster care, along with a state-agency identification badge. ~~To minimize disruption of the student's education, the law requires the district to enroll the student in a new school right away, without waiting to receive the typical student enrollment documentation (other than emergency contact information). The enrolling school must immediately contact the child's school and district of origin to obtain the relevant records and documentation, and the school and district of origin should immediately transfer those records.~~

If the student does not have immediate access to immunization records, the student shall be permitted to enroll under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary. After enrollment, the district will immediately request available records from the student's previous school.

Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to students in foster care and/or homeless families on the same terms as families who reside in the district. Accordingly, the district will provide transportation services to school in a manner comparable to the transportation provided for all other students in the district.

~~To facilitate enrollment, DCF representatives will present the district with a form that indicates that the student is in foster care, along with their state agency identification badge, when enrolling students.~~

LEGAL REFS: Every Student Succeeds Act (ESSA);

Fostering Connections to Success and Increasing Adoptions Act of 2008  
(Fostering Connections Act)

## EDUCATIONAL EQUITY

The Franklin School Committee's goal is to strive to address the needs of every student in each of our schools, subject to budgetary, space and other limitations.

Educational equity for the purpose of this policy is defined as providing all students, as reasonably practical, the high-quality instruction and support they need to reach and exceed a common standard.

To achieve educational equity the district will commit to:

1. Systematically, when appropriate, use districtwide and individual school-level school data, disaggregated by ~~race/ethnicity, gender/gender identity, national origin, language, special education, socioeconomic status, and mobility to inform district decision making.~~ race, color, creed, religion, ancestry, national origin, sex, gender identity or expression, sexual orientation, marital status, genetic information, disability, pregnancy or a related condition, veteran status, age, or homelessness.
2. Raise the achievement of all students.
3. Graduate all students ready to succeed in a diverse local, national and global community.

In order to reach the goal of educational equity, as reasonably practical, for each and every student, the District shall:

1. Provide every student with access to high-quality curriculum, support, and other educational resources.
2. Seek to promote educational equity as a priority in professional development.
3. Endeavor to create schools with a welcoming and inclusive culture and environment.
4. Provide multiple pathways to success in order to meet the needs of the diverse student body and actively encourage, support and expect high academic achievement for each student.

The Superintendent shall include equity practices in the district's strategic plan and goal strategies to implement this policy. The Superintendent, upon request, will periodically report to the School Committee the progress of the implementation of this policy.
