DLI Support (First Weeks)

Student Data Privacy Rollout

Now in full implementation; trained teachers on the use of registry and how to verify/request data privacy approval

Elementary Makerspace

Support of Elementary Exploration Block for grades 3, 4, and 5 and the setup of a Makerspace in each elementary building.

Touchview Rollout Training/Support

Providing support in classrooms and on a drop-in basis

Cooking with Google PD

Official rollout of self-paced modules for Google Basics on most workspace apps; earn PDPs

Admin Team PD

Attended admin retreat to provide PD on simplifying workflow using digital tools

New Teacher Orientation

Attended new teacher orientation and provided google training; attendees self-selected beginner or advanced workshop

4

Elementary Makerspace PD

Grades 3, 4, and 5

Cooking with Google

Upcoming in 2021-2022

- Finalize Multiyear Digital Learning Plan

- Design and implement a conference style Professional Development Day

- Provide support for staff with Curriculum and Instructional Digital Tools and in the moment troubleshooting

- Explore/Curate K-12 DLCS Curriculum

- Support with Account Management/Rostering

- Gather and analyze user feedback, usage data to inform budgetary decisions

Overview of Digital Learning Plan Goals

Multi-year Plan with 5 Focus Areas

Planning and Protocols	Curriculum and Instruction	Professional Development and Staff Training	Student Data Privacy	Technology Collaboration
Establish procedures to support digital teaching and learning across the district that lead to equitable learning experiences for students.	Create and curate curriculum materials to align with MA Digital Literacy and Computer Science Standards. Review instructional practices to adapt to continuously evolving digital environments.	Incorporate digital learning as part of the district's professional development plan, and establish recommended benchmarks and expand educator proficiency with digital learning tools and technology.	Develop and communicate a process to verify the safety and security of student data relative to digital learning tools	Collaborate with the Technology Department to plan, implement, and support digital teaching and learning through the use of technology hardware and software.

Build your own Conference (Jan PD)

- DLIs creating the infrastructure for a conference-style professional development day

- Offers voice and choice in PD options

- Not all technology related (wide variety of offerings, topics, presenters)

Questions/Comments
