### **Superintendent's Report to School Committee September 11, 2018 School Committee Meeting**

#### **Concession Stand**

The Concession Stand experienced a "soft opening" on Friday evening at the Panthers' first home football game of the season. What an impressive accomplishment across the many donors across town who contributed! There is a small amount of work still to be done, including adding additional lighting near the steps/walkway and additional exterior landscaping. There will be more formal acceptance, thanks, and recognitions in the weeks to come.

#### **Committee Work Underway**

The beginning of school is over and faculty and staff are busy getting the work underway. We are busy this week getting our working committees up and running. Training for the DESSA pilot occurred this morning and Mr. Giguere and Ms. Marano are brainstorming the roll out of Project Interface. Elementary literacy specialists and principals met with Dr. Edwards today to refresh the elementary literacy program this year. Dr. Edwards also initiated the first meeting of the homework committee. Later this week, the Digital Learning Committee will meet as will the Social Studies Committee. I've been busy preparing and organizing for School Start Times Advisory Committee -- subcommittees are meeting this week and next in preparation for our initial meeting for the year!
