

OUT OF SCHOOL TIME SUPPORT PROGRAM REGISTRATION NOW OPEN!

With local schools operating hybrid or remote learning, our YMCA will fill the gaps to ensure that kids have safe places to learn during the school day.

Remote learning will take place at our YMCA branches and specified external locations, in partnership with your schools. We intend to serve as many families as safely possible, because we know the need is great.

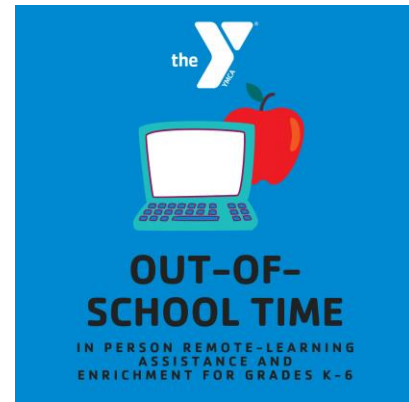

At Out of School Time, YMCA staff will assist students in their school assignments using their own laptop or device, assist with questions during remote learning, and help to keep them on track as they connect with their teachers online. During class breaks, and after school work is completed, the Y team will engage students with enrichment and physical activities.

[Learn more](#) details on our website and register with us today!

Please view [pre-registration information](#) on communication to expect after you register online, promotional codes to enter if you are registering multiple children or if you are a recipient of a voucher or YMCA scholarship.

We look forward to having you in our program.
