Office of Student Services

The FY21 proposed Office of Student Services budget includes funding for critical needs that assist in meeting the District Improvement Plan's goal of providing high-quality instruction to meet the needs of all students. The complex academic, social, and emotional needs of our students with special needs continue to intensify each school year. Consequently, we often need to change the configuration of our services and programs to meet these needs. We are mandated by both federal and state regulations to educate students with special needs in the least restrictive environment. One way we do this in Franklin Public Schools is by developing in-district programs for students with specific learning profiles. Currently, we have five in-district programs which support students in multiple grade levels across the district. Students in these programs require a low student to teacher ratio to ensure academic, social, and emotional success. They are provided a curriculum at their instructional level and pace so that they develop and gain independence and increase self-esteem. Without these specialized programs, many of these students might otherwise require a specialized out of district program at a higher cost due to tuition rates and transportation fees.

In our effort to improve and expand current programming, we recognize the need to continuously build the capacity of our staff to meet the needs of our students with diverse learning profiles. To do this, we work with a range of consultants who are experts in their field, i.e., child psychiatrist, clinical psychologist, assistive technology specialist, teacher of the deaf, educational audiologist, teacher of the visually impaired,

and autism specialist. Many of these consultants also meet with student's families to ensure carryover of strategies and the generalization of skills. We also provide professional development to our staff on topics such as specialized instruction, modifications and accommodations, anxiety, and trauma.

We currently have over 80 students in out of district placements. Many of these schools are projecting tuition increases of over 5% of the current tuition. In an effort to educate these students in a lesser restrictive environment and to remain fiscally responsible, students are consistently assessed to determine if and when they are ready to return to our in-district specialized programs. This year one student successfully transitioned back to the district. Four students are expected to graduate in June.

The Office of Student Services continuously assesses and evaluates student needs and programming to provide high-quality instruction to meet the ever-changing needs of all students.
