- Develop students' **social and emotional** skills through programs and practices that enable all students to acquire knowledge, attitudes, and skills associated with the core competencies for social-emotional learning.
- Create **personalized learning opportunities** by using student interest as well as formative data to develop engaging learning experiences where students are asked to problem solve, think critically and persevere with cognitively demanding tasks.
- **Establish relationships and mutual respect** with students in order for them to be their best selves to foster positive behaviors and increased academic success.
- **Partner with families** to strengthen the academic, social, emotional, and physical development of students in order to prepare them for future opportunities.
- Develop an **inclusive school environment** by providing a variety of instructional settings tailored to students' needs to develop self and social awareness skills.
- Create conditions for a school environment where **teacher collaboration** is rooted in reflective practice and we provide each other with diverse opinions about the practices that support student growth.
