

Franklin Solar Challenge

The Dept. of Planning & Community Development (DPCD) would like to know if Franklin wants solar panels.

The Franklin Solar Challenge will help residents and business owners obtain solar panels for **less**. The more residents and business owners that sign up, the cheaper solar panels become.

Right now, DPCD is speaking with other communities who have run their own Solar Challenge, in order to see how best to move forward.

DPCD Needs Your Support

Please help get the word out about the Franklin Solar Challenge. DPCD will contact those interested to organize a meeting date and discuss next steps.

Concord recently engaged in their own Solar Challenge and now 160 residents and business owners have their own solar panels. Save money and go green! Contact Franklin's DPCD today!

*Interested in the Franklin Solar Challenge? Please Contact the Town of Franklin's Department of Planning & Community Development at:
(508) 520 – 4907 or TOFPlanning@franklin.ma.us*
