

Davis Thayer Elementary School
Building Accommodation Plan
2016-2017

Massachusetts General Laws require the adoption and implementation of a District Curriculum Accommodation Plan (DCAP). This plan is intended to guide administrators and staff in ensuring that all possible efforts are made to meet the needs of students in the general education setting by supporting teachers in the analysis and accommodations of student learning styles and needs. The DCAP document is intended to support the efforts of educators to provide effective interventions for struggling learners.

Massachusetts General Laws, Chapter 71, Section 38Q1/2

“A school district shall adopt and implement a curriculum accommodation plan to assist principals in ensuring that all efforts have been made to meet the students’ needs in regular education. The plan shall be designed to assist the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education programming, including, but not limited to, direct and systematic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning, or who do not qualify for special education services under chapter 71B. The curriculum accommodation plan shall include provisions encouraging teacher mentoring and collaboration and parental involvement.”

The Davis Thayer BCAP has four main objectives and is based on the District and School Improvement Plans.

These objectives are:

- To help students develop connections to school, support positive behaviors and increase academic achievement, the Franklin Public Schools will enhance programs and practices to enable all students to acquire the knowledge, attitudes and skills associated with the core competencies for social emotional learning.
- To ensure that all students are supported and challenged to reach their full potential, the Franklin Public Schools will align curriculum, best instructional practices, and varied assessment opportunities to personalize learning and meet individual needs.
- To promote a climate and culture where all stakeholders are engaged and take ownership in their role in the continuous improvement of teaching and learning, the Franklin Public Schools will create a collaborative culture in which all educators hold a shared vision and beliefs about student learning that are rooted in reflective practice and the use of feedback to improve student outcomes.
- To ensure that all stakeholders are engaged with the school community in support of student achievement, the Franklin Public Schools will seek to enhance opportunities for two-way communication between and among all students, families, staff, administrators, and the community.

Vision Statement

The Franklin Public Schools will foster within its students the knowledge and skills to find and achieve satisfaction in life as productive global citizens.

Mission Statement

The Franklin Public Schools, in collaboration with the community, will cultivate each student's intellectual, social, emotional and physical potential through rigorous academic inquiry and informed problem solving skills within a safe, nurturing and respectful environment.

Davis Thayer Elementary Mission Statement

Davis Thayer, in collaboration with the district, families, and the community, will foster a school that learns by equipping students with the skills and knowledge essential to becoming productive citizens and lifelong learners. We will provide a physically and intellectually safe learning environment by modeling and promoting our core values of Respect, Encourage, Challenge, Include, Persevere, and Engage to nurture fulfillment of each student's potential.

It is with these statements in mind that this BCAP was designed. It provides a list of resources and accommodations available to students and classroom teachers. The BCAP provides a process to support struggling learners.

Please note: “The law requires that no instructional support program nor any other intervention limits the right of a parent to refer a student for a special education evaluation. However, if a referral for a special education evaluation has been made and the district has asked for and received parental consent to evaluate, then evaluation information from any instructional support program should be made available to the special education Team to consider when determining if the student is eligible for special education.”

General education provides a rich educational experience for all students. The Franklin Public School district is committed to the development of the general education classroom so that all students can achieve success in learning.
